### Maisto Die-cast Models

Maisto has been manufacturing detailed models for more than 40 years, but only recently started producing its Premier and Special Edition lineups, which include everything from one-off concept cars like the Ford GT90 to popular mass-produced rides like the Mini Cooper. Of course, usual favorites like Porsches and Lamborghinis can be selected from the vast 2012 catalog in either 1:18 or 1:24 scales. No matter the make or scale, each model is designed with help from OEM manufacturers and features loads of high-quality detail.
